

CURRICULUM VITAE

FOR

LANGFORD T MUDARIKWA

PERSONAL DETAILS

DATE OF BIRTH: 24 FEBRUARY 1998
PASSPORT NUMBER: GN305970
NATIONALITY: ZIMBABWEAN
PHONE: +264813214608
MARTIAL STATUS: SINGLE
LANGUAGE: ENGLISH
ADDRESS: Erf No. 4239, Circle Street, Ongwediva
EMAIL ADDRESS: mudarikwalangford@gmail.com

OBJECTIVE

A motivated Electronics and Computer Engineering student with a strong foundation in embedded systems, programming, and hands-on circuit design. Currently pursuing a Bachelor's degree and seeking an internship opportunity at Infratech Namibia to apply technical knowledge, gain industry experience, and contribute to innovative engineering solutions.

EDUCATION

Bachelor of Science in Electronics and Computer Engineering
University of Namibia, Jose Eduardo Dos Santos Campus —
Ongwediva, Namibia
Expected Graduation: 2026

TECHNICAL SKILLS

- Programming: Python
- Design & Simulation: OpenSCAD
- Hardware Skills: Soldering, circuit prototyping, IR sensor integration
- Tools: Raspberry Pi, Arduino, basic electronics lab equipment

SOFT SKILLS

- Excellent teamwork and collaboration abilities
- Strong communication and interpersonal skills
- Creative problem-solving mindset

PROJECTS

- Speed Detection System Using IR Sensors and Camera
- Designed and implemented a system that detects vehicle speed using infrared sensors and captures images of speeding vehicles.
 - Used Raspberry Pi for sensor integration and Python for programming logic and display control.
 - Successfully displayed real-time data on an LCD and simulated system behavior for presentation.

EXTRACARICULAR ACTIVITIES

- Volleyball Team Member
- Active participant in university-level volleyball games, promoting teamwork, discipline, and physical well-being.

Hiring Manager

Dear Sir/Madam,

I am writing to express my interest in the internship opportunity at your company. As a student that recently completed his studies in Bachelor of Science in Electronics and Computer Engineering, I am eager to apply my academic background and practical skills in a real-world engineering environment.

As a foreign student in Namibia, I understand the challenges that can come with securing internship placements. My primary goal is to fulfill my degree requirements and gain real world engineering experience. I am not seeking compensation but rather an opportunity to contribute to your team with my knowledge, energy, and eagerness to learn. I believe this can be a mutually beneficial arrangement—offering you additional hands while I gain exposure to practical engineering environments.

Throughout my studies, I have gained hands-on experience in embedded systems, programming in Python, and hardware integration using tools like Raspberry Pi and Arduino. My recent project involved designing a speed detection system using infrared sensors and a camera, where I developed and implemented logic for real-time monitoring and display using Python. This project not only sharpened my technical skills but also demonstrated my ability to work independently and solve complex problems.

In addition to my technical capabilities, I possess strong communication and teamwork skills, as demonstrated through various group projects and my participation in university level volleyball. I am highly motivated to contribute to your team and eager to learn from professionals in the industry.

I am confident that an internship at your company will provide a valuable platform for me to grow as an engineer while contributing positively to your ongoing projects. I am available and would welcome the opportunity to discuss how my background, skills, and enthusiasm align with your company's goals.

Thank you for considering my application.

Sincerely,

Langford Tinotenda Mudarikwa

To Whom It May Concern

RE: Internship Recommendation for Langford T Mudarikwa 219352590

This letter confirms that the above student is a registered 4th-year student at the University of Namibia for the 2025 academic year. The student is enrolled in the School of Engineering and the Built Environment, pursuing a **Bachelor of Science (Honours) in Electronics and Computer Engineering**.

As part of the curriculum requirements, all students must complete an industrial attachment before graduation. This practical component strengthens their academic training and provides essential exposure to professional engineering environments.

In support of this requirement, I recommend the student for an internship placement at your organisation for a minimum of **three (3) months**. The internship should include supervision by a qualified engineer or relevant professional and should offer tasks aligned with the student's field of study.

If you require any further information or clarification, please contact me at the number provided above.

Sincerely

Dr. Shindume Hamukwaya (Industrial Training and Community Projects Coordinator-SEBE)
